

Case Study

Client: AGT, St Ives. Cambridge

Project date: June 2016

Project Value: 7k

Project Management Service including:

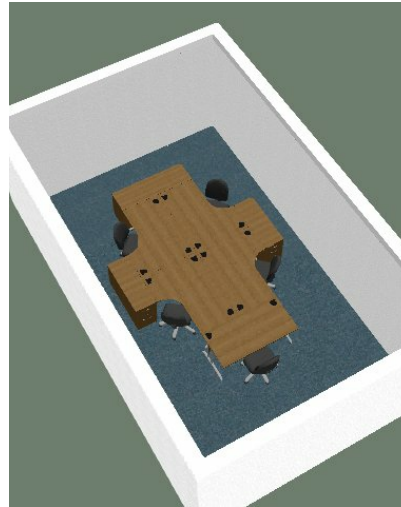

- Space planning & design
- Detailed installation and delivery schedule
- Office move
- Out of office hours works

MACOI were delighted to complete a recent project managed service for AGT in St Ives, Cambridge.

MACOI invited AGT to view our extensive range of furniture at our recently refurbished Cambridgeshire showroom and supplied detailed design plans and costing proposals.

The office refurbishment was completed on a Saturday to ensure minimal disruption to the business which included the installation of office and boardroom furniture with new carpet flooring being laid.

As part of MACOI's turnkey service to AGT, MACOI arranged for the removal of redundant furniture which was taken to the local recycling centre.

Testimonial

From planning to installation, we found MACOI Ltd to be professional and efficient. Our account manager Sarah Cornwell arranged for the carpet fitter and for delivery & installation of the new furniture to be completed over a weekend so as not to disrupt our working week, which really worked great! We are very happy with the quality of the furniture and the service we received from MACOI and would happily recommend them in the future.

Jill Walker, AGT Ltd
