

Case Study

Client: Horsenden Primary School,
London

Project date: May 2015

Project Value: £35k

Project Management Service including:

- Space planning & design
- Detailed installation and delivery schedule
- Detailed risk and method statements
- Bespoke office furniture

As an approved ESPO supplier, MACOI Ltd were commissioned to provide a bespoke storage wall solution for Horsenden Primary School, London.

As part of our full project management service we provided a full site survey and prepared detailed design plans. Additionally prior to installation, we prepared full risk and method statements.

The bespoke storage wall units not only offer striking aesthetic appeal, but they provide a high volume of storage whilst minimising the usage of floor space.

We received the following testimonial from a pupil at the school which was included in a recent School newsletter for parents....

“ We have got something called a storage wall and it keeps all our things tucked away tidily”.
