**Project date:** August 2016

**Project value:** £150k

**Project Management Service including:**

- Space planning & design
- Onsite consultations & site survey
- Detailed installation and delivery schedule
- Risk Assessments & Methods Statement

MACOI Ltd have recently completed the supply, delivery and installation of an exciting new furniture refurbishment project for the students at Milton Keynes College.

Special curved computer benching, acoustic meeting pods, library shelving, and flexible classroom teaching spaces have been created within the new Library and 3 'Virtual Workshop' areas.

The college's Facilities team were keen to showcase a lot of innovative new furniture and therefore visited the MACOI showroom at Kimbolton, Cambridgeshire to gain inspiration and view different styles, colours and textures.

MACOI produced layout drawings and quotations for the proposed new areas, and the project was completed on time and within budget ready for the new academic year.
