

Case Study

Client: Nottingham Police

Project date: November 2014

Project Value: £10k

Project Management Service including:

- Space planning & design
- Detailed installation and delivery schedule

As preferred suppliers to Nottingham Police, Macoi are delighted to have been involved in the refurbishment of the forces staff cafe area / break out space.

This fabric used on our carefully selected furniture is bleach cleanable and environmentally conscious too. The fabrics are powered by Camira TriOnyx, a soft-effect finish which ensures fabrics are stain repellent and waterproof, permanently antimicrobial using Maedical, and flame retardant to the highest European standards.

We have received great feedback from our customer and we hope the forces enjoy their new space.

Testimonial...

" My brief was to create a new kitchen and dining room but to try and move away from the typical corporate colour scheme for this particular area. I approached Steve at Macoi providing him with the kitchen layout, a sample of the floor covering and a woodland mural wallpaper swatch. Steve presented a mood board with functional, practical and stylish ideas to tie in with the woodland theme. A mixture of soft seating, dining tables and a breakfast bar were incorporated into the design to utilise the full space.

I'm really pleased with the overall result and the support Steve provided throughout the project and the feedback from the end customers is really positive." **Kay Sharpe - HQ Estates**
