Leicestershire

Project date: 2015

Project Value: £50k

Project Management Service including:

- Space planning & design
- Risk Assessments & Method Statements
- Detailed installation and delivery schedule
- Bespoke and standard furniture
- Out of normal office hour works

Countesthorpe Health Centre is a busy community medical centre in Leicestershire, comprising of around 9,500 patients from the surrounding towns and villages.

To keep pace with the the patient numbers, the health centre has been extended and refurbished in order to provide an ever wider range of services.

MACOI Limited provided Countesthorpe Health Centre with a complete turnkey solution. Our project management service included the full design and interior fit-out works which included:

- Decoration
- Flooring preparation & screeding
- Supply & fix of bespoke joinery
- Notice boards and bumper rails
- We assisted in the creation of a play area
- Refurbishment of reception counter
- The removal of the existing health tardis
- Creation of a new room

- Refurbishment of pharmacy including bespoke cabinets to create an ergonomic and practical preparation and distribution area.
- Security doors and shutters installed
- Consultation rooms re-furnished including decant programme safety flooring
- New furniture

To complete the refurbishment programme, MACOI provided practical yet stylish furniture with fully compliant anti-microbial fabrics.

The interior fit out and refurbishment was a complete success, and the state of the art health centre team are thrilled with their new work environment.
